

'Starchless' Gummies from either Pectin or Gelatin formulations

Order Custom Molds for Your Gummy Machine

Material: Teflon® Coated Aluminum

The order process is simple:

1 Samples:

Send us a drawing and or samples of the Gummy shape you want to produce. Include desired weight and indicate the make and model of your machinery.

2 Drawing:

We will generate a dimensional drawing of your product mold and return it to you for approval.

3 Quote:

Once the drawing is approved, we will provide you with a written price quote.

4 Fabrication:

A 50% deposit gets the fabrication process started. This takes 4-6 weeks. The remaining 50% payment is due before shipment.

Here are a Few Samples of Molds We can Make for You:

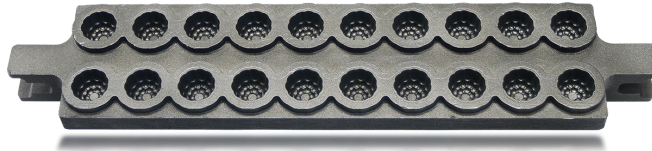

GUMMY BEARS

ORANGE SLICES

BERRIES

TEARDROPS

GUMDROPS

If you are in need of additional tooling for your CapPlus Gummy System, please contact us.
